Objective

To obtain a full-time position in order to bolster my current experience in software engineering or a related field.

Education

Bachelor of Software Engineering, McMaster University

Degree — 2013-2017

Development/Tools

Platforms:

Windows, Mac OSX, UNIX, Android

Languages:

Java, C, C++, Python, PHP, VBA, HTML5, CSS and more

Tools:

Eclipse, MS Visual Studio, VIM, EMACS

Mathematical Skills

Competencies:

Calculus, Formal and Informal logic, Algorithmic & Data Structure Optimization

Tools:

MATLAB, Maplesoft Maple 17

Experience

Training Sergeant-Major, 557 Lorne Scots Army Cadets

Brampton, ON — 2007-2011

I was a valued member of my unit and would frequently go out of my way to do whatever was necessary to complete the task at hand. I achieved the National Star Certification Exam (NSCE) in 2008 which signifies my ability to teach and lead other cadets in the field or a classroom environment. I have since led anywhere from 10 to 200 12-19 year olds.

Accomplishments

- NSCE
- Service Medal
- Most Dedicated (two years)
- Top Fundraiser
- Top Red Star

Sales Associate, Toys R' Us

Brampton, ON — 2011-2012

I was initially hired as a seasonal employee and later hired back on due to my high level of performance on the job. I performed the duties of a cashier, a floor sales associate and a customer service representative. I was effective in all positions assigned to me and I was often used in order to pick up slack where needed.

Sales Associate, Best Buy

Brampton, ON — Winter 2012

I worked as a seasonal employee during the Christmas season mainly in the video game department. However, I was also frequently called to assist with the computer department as well if they needed assistance or were short staffed. One major role in the position I worked was incentivizing the protection plan offered by the store to insure the customer's products. I was extremely effective in making these sales.
